

Travel Agent Project Update Summary

This PDF describes the updates made to the Travel Agent project, including UI improvements and report generation features.

1. Designed a polished hero banner, refined dark theme, and premium dashboard card layout.
2. Built browser-based voice command support with speech recognition and transcript parsing.
3. Added data-based budget recommendations, travel mode guidance, and affordable hotel matching.
4. Enabled exportable Excel itinerary reports and a downloadable project summary PDF.
